

DEVON ORIENTEERING CLUB

invites you to try the

LIDAR experience at the Caddihoe Chase 2013 Virtuous Lady, Dartmoor on 14/15 September

A new map has been prepared by Erik Peckett of DEVON using LIDAR technology; airborne scanning that can go beneath the trees. All the features are there and definitely in the right place!

Day 1, Saturday, is the **South-West Long Distance Championship event** (Level B). On Day 2 (Level B), chasing start times will be computed on the basis of Day 1 running times, with a base-time of 10.00. Age-class Caddihoe trophies will be awarded on the combined results of both days. The grid reference for the parking field for both days is SX 503691.

The terrain is a mixture of open areas with some bracken, mixed woodland, steep hillsides with rock features and former mining terrain. The terrain is generally runnable. The area has been used on several occasions for this event, the last time being in 2005.
